1. Flores to not "Re autopsy"
"diary" for "diary"
"Don't believe anybody"?
"1121 deaths" 1964
("sudden cancer" :)
"fourth ~~total~~ CIA"
"convenient deaths" 1954
like Cold Case
Officials" 1954
Jorge de M was "a
spy assassination
victims"? 1950
1060 JM English "former
head of FBI Forensic
Science Laboratory" when
[re relevance]
1063- Orig not made public
immediately. First by WC 9/64.
11/64 + two years later we had
some leaks of evidence and most

2) of what has come out had not become available as the Act on 1963 kicked out after the passage of many years" - FOIA

1064 J E Hoover was not "facing the end of his career ... because of" J.F. Dempsey was not considering firing him & had reappointed him at any time

1067 Dest not to abs about radio unit not ass. & of Ransmith. Copy from Hales & something dating from a rec pocket or supplication or plan. 9 arrests

1069 "slug" (?) "taken by a man later identified as an FBI agent", "identified"? by whom? Are Bernstein not? No search I.D.

Confirmation of plan by "federal authorities" is a canard. Dey in part would be full-time

to the extent possible

" authorities" for DPD example of loose & misleading wording or in federal use when his references to "authorities"

1072 "Pres Johnson ordered evidence locked up until the year 2039 while the HSCA sealed up its evidence for 50 years" - not so.

1073 "suppressed evidence" includes "the actual results of Spectrographic and Neutron Activation tests" & "powder burn tests" and "the incidents involving Lyndon Odio and Lee Harvey Oswald" not connected & he does not know what he is talking about.

(3)

1074 Now when he talks about "witness" who
"turned up dead under strange circumstances"
Whitey" he sure has a case of "strange circum-
stances" — hmmkay!

"A Conspiracy of Silence" 1084 ff begins by
saying that "The plot to kill Kennedy" can't be
stated because so much was "destroyed,
altered or masked by false leads" which
block off the many alleged plots? Except what
about the literally thousands of pages of records
of which he speaks?

But (1085) "The true outlines of the plot that
killed Kennedy can be discerned by diligent
study of all available assassination data". It hasn't
been & tried to see it and is really talking about
fantasies written by buffs and what follows is
theory, not fact & evidence

1088- silly & unfactual "But those Mafia bosses
were smart. They realized the consequences of Kennedy's
death should ever become known" "World not
any body other than a Mongolian idiot? and
what he is really talking about is people
who had no connection at all with JFK's murder.
They were trying to tell history in the CIA

4

All sorts of imaginings started as fact -
and I dismissed as simple footnote
Like, in 1984, allegations of Hoover's "contact
with his close friend, "LBJ - Virtually none
between the two. Hoover was asking questions & also
answers through channels
1984 attitude is "The CIA's largest asset training
Center" It is in fact Air Force and CIA used it in
4-20. Did he never hear of why the CIA had rule
stations & pilots - to like the Bay of Pigs?
The page has a fanciful description of LHO!
distrust - strange attempt

The whole section is valid imaginings
preserved as fact
1984 To be absolutely careless factual errors, like
When police car & cruiser go, it is Sonny Boy Williams horse
that defames LBJ
fact, in a group fabrication & flaunt my of
upon one of the Dixie & well - known facts
anything that his "just act as friend did was
to order Dr. removal of Kennedy's body from
Parkland Hospital for the official "LBJ had
the hell as Medical Examiner" LBJ had
not hing to do with it it was the
JS knew, but it was before LBJ
was President
